FINAL TOUCH

Beautiful Balance

Clean lines, warm finishes and a less-is-more approach create a calm space.

Photography by John Ellis

A scenic view outside your master bedroom instantly creates a focal point. In this relaxing retreat belonging to Dr. Zein Obagi of the ZO Skin Centre and designed by Arianna Noppenberger, uncomplicated lines and soothing colors and textures are the perfect balance.

“The fireplace hood is made of curved steel plate with a smooth white automotive paint finish, while the soothing curved shape is inspired by the ocean waves,” says Noppenberger. “The face of the fireplace is clad with Ocean Silver unfilled travertine and the cantilever hearth clad in Hera limestone extends to the outside, becoming the master deck fire pit.”

To keep the focus on the ocean view, the motorized TV slides inside the hood. The room’s clean design and warm textures make it feel like a restful space.

“The key elements are the delicate natural color palette drawn from the beach below, soothing shapes, the fire element, the sound of the ocean and the intimate scale of the room,” Noppenberger says.
